

CREATE AND CONTROL YOUR OWN FUNDING SOURCE

GOAL: BUILD AND CONTROL YOUR OWN REVENUE STREAM BY CREATING AND OWNING A DEMOCRATIC ENGAGEMENT INFRASTRUCTURE THAT IS A SOURCE OF GENERATIONAL WEALTH FOR BLACK CITIZENS.

1 ISSUE THE FUNDS

2024

City of Seattle

Create a Sovereign Wealth Fund: \$20M

(\$5M for citizens, \$15M for app, Black Business Directory, svcs. buildout)

Register all WA state citizens of Afr. Am. decent

2 BUILD THE APPS

2025-26

Driven and built by the people:

Accountable Policing Platform | Election Reform App | Pandemic Response App

Citizen-led and owned democratic solutions
100% customizable to meet community needs

3 SELL THE APPS

2026+

***SaaS-based Democratic Offering**

Cities or states purchase apps they want:

Bellevue, WA: ERA, PRA: \$2M/mo. = \$24M/yr.
Olympia, WA: APP, ERA: \$2.5M/mo. = \$30M/yr.
Portland, OR: 3 Apps + Reporting Svcs. = \$60M/yr.

Projected Revenue: 120M/yr. by Y3; \$200M/yr. by Y5
*Software as a Service: apps sold and used in the cloud

4 DISTRIBUTE FUNDS

2027+

Revenue shared with citizens' digital wallets:

My DID* | My Digital Wallet

Provide them with world-class technology that's Web3-ready, 100% safe and citizen-built/owned
*Decentralized Identity: visit www.decentralized-id.com

5 CREATE BLACK MARKETPLACES

2028-29

Finance (personal, small bus. loans; access to capital) | Sports (NIL) | Music and Art

Real Estate | Retail | Fashion | Tech Help ('Black in AI')

Public Sector: Transparency and Accountability!
Private Sector: Streamline the Process; Own Your Creativity!

6 \$1B SOVEREIGN WEALTH FUND

2029-30

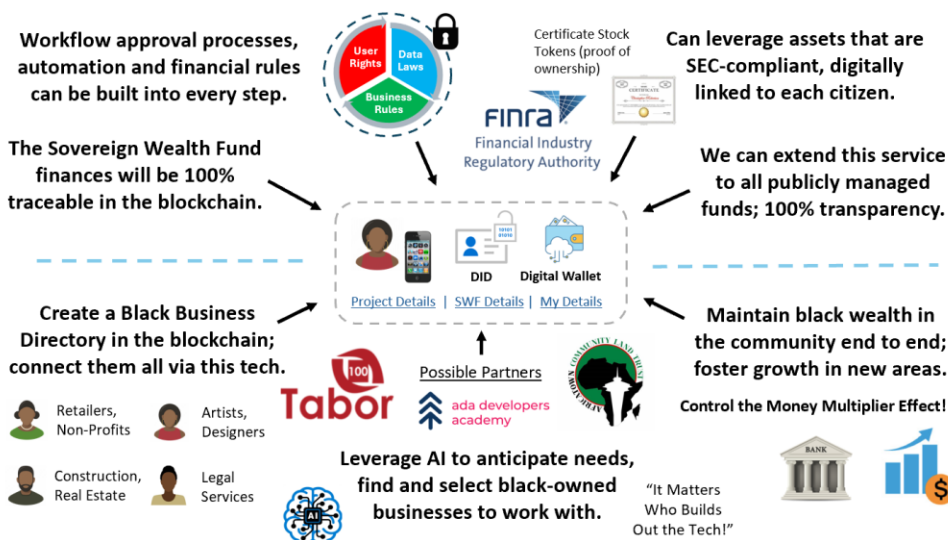

Funds available for personal or professional use

Other citizens can 'buy in' to the fund...
...leverage the same tech, apps

Fund: 50x returns in 5-6 yrs.

FOCUS ON FINANCES: BY USING THE BLOCKCHAIN AND WEB3 SERVICES, WE CAN CREATE A 100% TRANSPARENT AND ACCOUNTABLE PROCESS ON HOW THE FUNDS ARE DISTRIBUTED AND MANAGED.

FUND: CREATE 100% END-TO-END FINANCIAL ACCOUNTABILITY

OTHER BENEFITS

Use of Web3 in a Social Purpose Corp:

We can work with all parties to create the same level of transparency and accountability into **our business model** by showing all parties where every dollar is going; being the first tech-based S.C.P.* company to do this.

New Standards for 501c3:

We can also leverage the same set of technologies to create a new standard for how non-profits are run; by giving both donors and the state complete visibility (and some control) into how 501c3 funds are managed and distributed end to end.

Next-Gen Municipal Services:

Paves the way for digital asset use in the state; we can build 'digital city' services, creating much greater efficiencies in the Public Sector, improving quality of life.

*A Social Purpose Corp is an entity type unique to WA state whose bylaws state that 'the #1 commitment is to the community', and Web3 will be used to validate that.
