

WEB3 TECH ROLLOUT PLAN: HOW WE'LL GET THERE

GOAL: INTRO THE TECH IN THE PRIVATE SECTOR; MAKE RELATIONSHIPS TO PREPARE FOR PUBSEC INTEGRATION.

Phase 1: POC (tech buildout)

2026
Q1-2

Create the Proof of Concept via a partnership with platforms like AllPeeP (a community-focused web platform centering on data ownership and control).

*Decentralized Identity: key Web3 tech for digital sovereignty rights.

GOAL: create a 'Web3 Premium' service for their customer base; get feedback on feature buildout and create a dApp build and ownership platform.

Web3 Premium Service Offering:

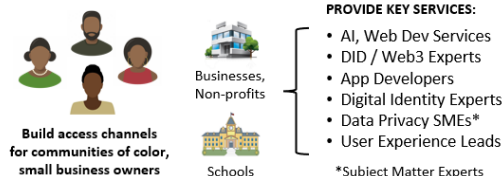

- Decentralized Identity
- Digital Wallet (Crypto)
- NFT Creation and Use
- Social Media Data APIs
- Personalized AI Agent
- AllPeeP Integration
- DID Dashboard
- IP Ownership*

*Intellectual Property; to create co-ownership model for AllPeeP members of what we build (Hub and Spoke model: DID and dApps tech)

Phase 2: Local Partnerships and Relationship Building

2026
Q3-4,
2027+

1 BUILD CRITICAL PARTNERSHIPS

Create local alliances to prepare for the effort.

Build a world-class infrastructure for the people to use

2 LAY THE TECH FOUNDATION

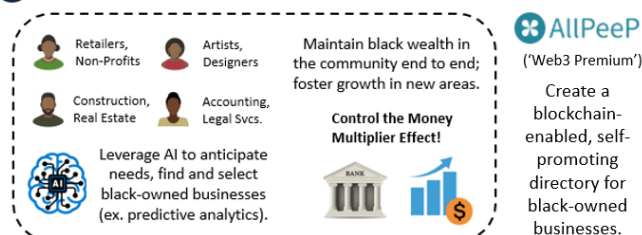

Build the necessary tech, legal elements to implement the POC in the Public Sector; conduct deep internal testing, give to officials to use end-to-end.

Phase 3: Empower Small Business for Social Change Platforms Apps

Use our Web3 technology and relationships to create customized, community-driven solutions, for example:

2026-27

1 BUILD AN AI-DRIVEN BLACK BUSINESS DIRECTORY

2 Create a Decentralized Small Business Creation Pipeline, like this:

<https://socialchangeplatforms.com/wp-content/uploads/2025/10/SCP-DeEverything-Pipeline-and-B2B-DID-Creation.pdf>

3 BUILD COMMUNITY-LED APPS

Driven by AllPeeP users; leveraging their DID tech.

Use AllPeeP features to vote on apps to build.

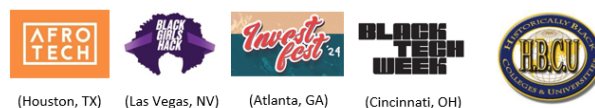

100% customizable to meet community needs.

Phase 4: Expand Nationally and Globally (sell dApps)

2027-29

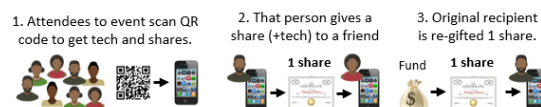

1 CREATE NATIONAL BUZZ!

Promote tech at various black-led tech events and at HBCUs.

- Introduce Web3 technologies
- Give stock in DID to all attendees
- Provide tech, help via workshops
- Create incentive growth program

2 CREATE COMMUNITY OWNERSHIP PLAN

Assets managed in a Web3-secure, SEC-compliant infrastructure:
